DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

2. Claim 1 is objected to because of the following informalities: In claim 1, the phrase “which are designed in such manner and/or positioned such relative to the covering” is not proper grammar. Also in claim 1, the phrase “the cap member (20, 21) at is retained at said top by said upper covering cap (32)” is not proper grammar. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3635

Regarding claim 1, the phrase "and/or" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

5. Claim 1 recites the limitation "the part protruding from the roofing" in line 21 of the page. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 1 recites the limitation "the adjoining part" in line 23 of the page. There is insufficient antecedent basis for this limitation in the claim.
7. Regarding claim 2, it is not clear what the term "its" is referring.

Allowable Subject Matter

8. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
9. Claims 2-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
10. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the use of a roof window as specified in claim 1, wherein the cap member is retained at the top thereof by an upper cap covering having an integral hidden bent

means that engages with an engagement means formed on the lower end of the frame side member.
